

Full Height Turnstile

Swaraj Secutech Stainless Steel Full Height Turnstile (Single/Dual) is a user-friendly & heavy-duty access barrier developed for the efficient control of pedestrian movement. The barrier can be mounted easily with minimal foundation requirement and comes loaded with bright LED displays. It can be interfaced with dry contacts or through PC by using RS232/ RS485 or TCP-IP (optional)

The Full Height Turnstile incorporates a fail-safe safety solution wherein in case of emergency or power failure, egress is provided with free movements of arms or vice versa.

FEATURES & BENEFITS

- Seamless integration with all third-party access control systems
- Available in 03 arms (120 degree) and 04 arm (90 degree) options
- A passage indicator LED allows seamless passage direction.
- Auto re-set function on, if no passage is identified within the allocated reading time, the system will reset automatically, and the pedestrian will be prohibited to pass until they are validated again
