

# **PAT 6 BOOM BARRIER**

Swaraj's Patriot 6 Series Barriers are the ideal choice for heavy-duty operations. When the requirement is a combination of maintenance-free operation and aesthetic looks, Patriot barriers fit in perfectly. Made Indigenously, the Patriot barriers have the following features.

#### HEAVY-DUTY, WEATHER-PROOF AND SIMPLE-DESIGN HOUSING

The housing uses a precise machined pre-galvanized steel sheet / SS plate, which is then powder coated according to the customer's choice. The barrier confirms to IP67 dustproof and waterproof standards. The barrier is simple in design and yet aesthetically decorative.

#### 100% DUTY CYCLE OPERATION WITH 10 MILLION MTBF

Maintenance-free gear motor mechanism ensures 100% duty cycle operation with 10 million MTBF. The heavy-duty Motor is environment-friendly, energy-saving, and maintenance-free. Only 120 Watts of motor power ensures that there is no overheating while working continuously in intense operations conditions. The barrier has a built current transformer that ensures mechanical safety. Its unique operation logic ensures a slow start and slow stop operation.

#### EASY INSTALLATION AND MAINTENANCE FREE

A simple structure and encoder-based limit switch-free design ensure easy installation and Maintenance while reducing maintenance costs.

## MANUAL OPTION IN CASE OF POWER FAILURE

In case of power failure, the barrier is equipped with a manual handle for effortless manual operation

#### INTERCHANGEABLE DRIVE MECHANISM

The patent pending precise casting, INTERCHANGEABLE drive mechanism enables changing the direction of the boom barrier from left to right and vice versa on site
