

## MECHANICAL TYRE KILLER

Swaraj Secutech's Mechanical Tyre Killer is designed specially according to HCIS regulation of KSA. It is used to prevent entry/exit of vehicles from wrong direction. The Tyre Killer is eco-friendly as it works without any mode of power supply.

This One-Way Tyre Killer can be used on the road surface permanently to protect an important premises. Any vehicle trying to pass over the spike in the wrong direction will have its tires instantly punctured by the spike which will quickly, safely and effectively disable the vehicle.
